

MCCREARY GRAVEL RALLY

Bulletin 4

Date: 04/26/23 Time: 1900

Subject: INSTRUCTIONS FOR THE RUNNING OF SHAKEDOWN

Thank you for your patience.

From the Start of SS1, cars will enter the Shakedown on a 30 second interval and run until the Shakedown Flying Finish, immediately decelerating and entering a turn around holding area as directed.

When three cars have left the start of shakedown, the remaining cars will hold at start. Cars that are in the turnaround holding area after flying finish will then use a rolling start and will return to Shakedown Start on 30 second intervals.

A second group of three cars presented for shakedown will repeat the process. Cars may rejoin the line to rerun. Please limit your rerun to one occurrence.

If a vehicle doesn't arrive within 1 minute of the proceeding car the Shakedown stage will be shut down and a safety car deployed with approval of the Clerk of the Course who will be at Shakedown Start.

Signed,

Bernhard Obry, Clerk of the Course
